The Contractor shall take upon himself the whole risk of executing the works in accordance with these Conditions, the plans and/or specifications and shall be solely liable for loss or damage to the works from any cause whatsoever (except loss or damage caused by negligence, omission or default of the Council, its servants or agents) until the Superintendent has certified that the whole of the works have been satisfactorily completed by the Contractor.

The Contractor shall observe and comply with the provisions of all relevant acts, ordinances, regulations, by-laws and rules and all requirements of any authority as shall be in force in the place where the works are to be executed and as may relate to the works to be executed. However, the Contractor is not required to submit building plans to local or other authorities for approval.

Unless otherwise specified, the Contractor is responsible for connection of all water, drainage, sewer, gas and electricity services (if required) and he shall apply for all relevant permits and pay all associated fees and/or charges, which are levied by the appropriate authority. Materials, plant and equipment purchased for incorporation in the work under the Contract will be subject to GST.

The Contractor shall be liable for and keep the Council indemnified against any legal liability, loss, claim or proceedings for personal injury to or death of any person or for injury or damage to property arising from carrying out of works, other than that which may arise from the negligence, omission or default of the Council, its servants or agents.

For the duration of the Contract, the Contractor shall maintain appropriate Workers Compensation Insurance cover. This cover shall comply with the Work Health Act of the Northern Territory and policies must be purchased from N.T. approved insurers.

This does not apply to Proprietary Limited Contractors who employ only their company directors.

Materials used in the work under the Contract, and standards of workmanship, shall be in conformity with the provisions of the Contract. In the absence of any such provision in the Contract in respect of any material or standard of workmanship, that material or standard of workmanship, as the case may be, shall be of a kind which is suitable for its purpose and is consistent with the nature and character of the works. Any materials not otherwise specified shall be new and, where applicable, materials and workmanship shall be in accordance with the relevant standard of the Standards Association of Australia. If the Superintendent is of the opinion that any materials or works, whether fixed or not, are not satisfactory, he may direct removal or correction at the Contractor's expense.

The necessary adjustment (if any) to be made to the Contract price as a result of any such variation shall be determined by mutual agreement between the Superintendent and the Contractor.

The Contractor may, by giving one month's notice in writing to the Superintendent, voluntarily terminate his liabilities under the Contract. On expiry of such period of notice, the Contractor shall be paid for all work completed up to the date of termination.

If the Contractor fails to carry out the work at a rate of progress satisfactory to the Superintendent, or neglects or omits to carry out any instruction of the Superintendent in respect of the work or fails to complete the works within the period specified for completion in accordance with these Conditions, plans or specification or such extended time as the Superintendent may approve, or intimates other than as provided in these Conditions that he is unwilling or unable to complete the works, the Superintendent may, by notice in writing, either:

Should the Superintendent take action pursuant to Sub-Clause (b) above these Conditions, then all losses, costs, charges and expenses incurred or sustained by the Council in completing the works will be deemed to be a debt due to the Council by the Contractor and will be deducted from any monies that may then be or may thereafter become due to the Contractor.

If the monies then due or thereafter becoming due to the Contractor were less than the amount so deductible, the amount of the deficiency shall be a debt due by the Contractor to Council.

The Contractor shall not assign the Contract, or mortgage, charge or encumber any of the monies payable under this Contract or any other benefit whatsoever arising under this Contract. Should the Contractor desire to sub-let any part of parts of the work, he shall submit to the Superintendent the names of his proposed Sub-Contractors and the nature of the work, which it is intended they undertake, and receive the written approval of the Superintendent in respect of them. No Sub-Contractor shall be employed in connection with the works unless such approval is firstly obtained.

Any Sub-Contract shall be in writing and contain the provision that progress payments to the Sub-Contractor shall be made within Fourteen (14) days after the Contractor has received payment from the Principal.

The Contractor shall ensure that all persons employed on the works, whether employees of the Contractor or Sub-Contractors, are paid at rates which are not less than those fixed by any relevant award, determination, judgment or order of any competent court, board, commission or other industrial tribunal and are employed under the Conditions prescribed in any such award, determination, judgment or order.

Any notice in writing by the Superintendent shall, when posted in a pre paid letter addressed to the Contractor at his usual or last known address be deemed to have been duly received at the time at which the ordinary course of post would have reached that address.

The Contractor shall comply with any direction, either orally or in writing, issued, given or served upon the Contract by the Superintendent or his representative. Any direction given orally shall, as soon as practicable after it is given, be confirmed in writing by the Superintendent.

For the purpose of the clause, the word 'direction' includes any agreement, approval authorization, certificate, decision, demand, determination, direction, explanation, instruction, notice, notification, order, permission, rejection, request or requirement which the Superintendent may make, give or issue pursuant to the provision of the Contract.
